

Fin HO7: Optional Budget Activity

Scenario	Considerations / response
<p>The school staff and principal have worked collaboratively to develop a budget for the coming year. Data has been analysed and clear needs have been identified and strategies developed to address these needs.</p> <p>The School Council President stated they were comfortable with the proposed budget as did most of the Finance Sub-committee, however, one of the parent members from the Finance Sub-committee has other ideas about how the school funds should be dispersed and has influenced a couple of the other parent Councillors.</p> <p>At the meeting they are threatening to not endorse the proposed budget. This would mean the motion to pass the budget would not be passed.</p>
