

**Gov HO1: Role of school councillors scenarios**

Scenario	Considerations / response
<p><b>Scenario 1:</b></p> <p>The school council at a school in regional Victoria is recommending at tomorrow's council meeting that the school cleaning contract to be awarded to Nifty Cleaners. You have just been made aware that the owner of Nifty Cleaners is the brother-in-law of a school councillor.</p>	
<p><b>Scenario 2:</b></p> <p>A local franchise of a fast-food company has offered to donate four trampolines with attached safety netting to the school. Their logos would be attached to the equipment, but there would be no other advertising. Should the school council accept the offer?</p>	
<p><b>Scenario 3:</b></p> <p>A couple of parents have expressed concern to you about the performance of a particular member of staff. Should school council consider instigating a performance review process for the school's teachers?</p>	

**Scenario 4:**

You were elected to council as a parent member. You are also a member of the school's Parents and Friends group. School council has proposed changes to the Volunteers policy, changes that are concerning the Parents and Friends group. The group has asked you to vote against the recommendations when they put at the council meeting. How would you respond?
